

S.No: 14	Exp. Name: <i>Sample program on method overloading</i>	Date:
----------	--	-------

Aim:

Write a program on method overloading

Source Code:

Sample.java

```
class Sample {
    public void print(String c) {
        System.out.println(c); }
    public void print(String c, String d) {
        System.out.println(c + ' ' + d); }
    public static void main(String args[]) {
        Sample s = new Sample();
        s.print("a");
        s.print("a","10");
    }
}
```

Execution Results - All test cases have succeeded!

Test Case - 1
User Output
a
a 10
